An invitation for local elected and appointed officials
& community leaders

Chisago Area Lakes Lessons across the Landscape

*A workshop featuring an interactive bus tour to build
knowledge and understanding about how local land use
decisions affect the quality of our lakes and the various
practices we can implement.*

The program will include:

- **The Quality of Water in our Lakes**
The pollutants, how we monitor, and what we know
- **Urban and Developed Landscapes – impervious surfaces**
The contribution from residential, commercial and road infrastructure
- **Rural and Agriculture Landscapes**
Runoff and land use contributions from our rural and agriculture community
- **Case Study - Lakeside Elementary School**
- **Watershed workshop reflections**

Sponsored by:

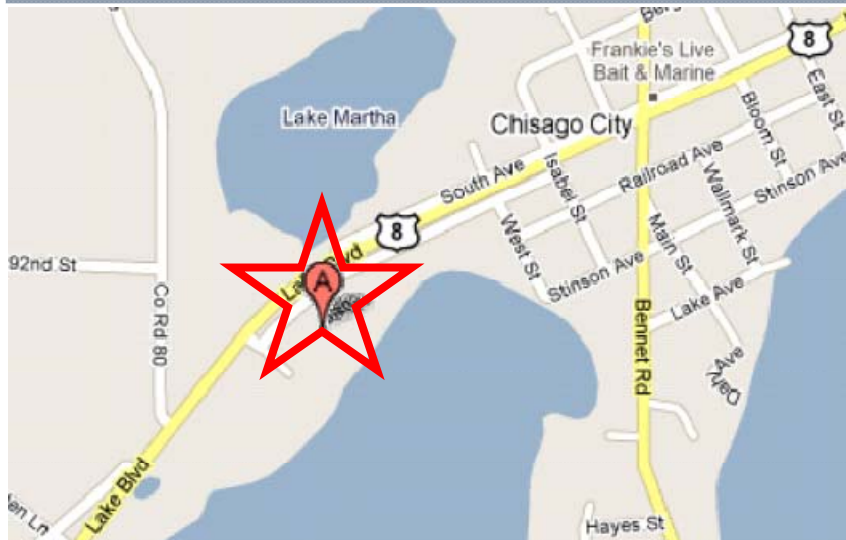

Chisago Lakes Lake Improvement District

In partnership with:

Chisago Soil & Water Conservation District (SWCD)
Department of Natural Resources Waters Division
(DNR Waters)

University of Minnesota Extension – NEMO Program
Nonpoint Education for Municipal Officials

Map to Lakeside Elementary School

Meet in the school parking lot – look for the bus.

The bus departs **sharply at 1pm!**

About the Chisago Lakes Lake Improvement District

The Chisago Lakes Lake Improvement District (LID) was created to protect and restore the surface water resources of the Chisago Lakes watershed. The LID works to improve water quality, maintain the lake level weir system, encourage environmentally sound land practices, and educate those who use the Chisago Lakes Chain of Lakes on how to best preserve them for future generations.

About NEMO

NEMO or *Nonpoint Education for Municipal Officials* is an education and training program that builds the knowledge and skills of local decision makers, elected & appointed officials, and community leaders in the area of water and natural resource management. NEMO Programs provide resources that hopefully lead to more informed land use decisions for the community.
